

External Socially Important Projects of MKB

As a socially oriented bank, MKB is successfully developing a number of programs aimed at implementing sustainable development goals and strives to support and develop a responsible attitude toward environment and social problems of today's society. To be not indifferent and to make this world cleaner and better, these are the main objectives of MKB within the frames of implementation of the sustainable development program.

MKB rests in its work on the systemic approach because the practice shows that it is the only way to attain maximum efficiency from the implementation of such projects.
